CROWN

35 ROSE GOLD PALETTE DISPLAY

The 35 Rose Gold Palette is a highly pigmented eyeshadow palette with a combination of warm golds, browns, and pinks in both matte and shimmer shades. This palette is perfect for an every day look or a soft, neutral smokey eye that is suitable for all skin tones. Each shadow is omega enriched and long lasting.

The 35RG is designed to create a neutral look on any skin tone in various depths. For a bolder look, apply the deeper tones with a firm brush and pack onto the lid or use a pointed crease brush to build depth into the crease. Use any of the mid tone shades on the lid to soften the lid or to base a natural everyday look. Choose any of the lighter tones to highlight the browbone and or inner corner of the eye.

20CON COLOR CONCEALER PALETTE

The 20-color contour/concealer palette contains 12 concealer shades with medium, buildable coverage that can neutralize any skin tone. All shades are blendable to achieve the desired shade and can be used for highlighting and contouring. The palette also contains 8 color correctors. To use as concealer, use appropriate shade to conceal and neutralize the skin. Use the lighter shades to highlight and deeper tones to contour to desired depth.

3 PIECE FULL FACE CONTOUR SET DISPLAY

The full-face contour set is a paddle brush set designed to help sculpt and define the face. These luxuriously silky brushes deliver optimum and even coverage for a perfect finish every time. They assist in adding depth and definition through highlighting and contouring, and allow you to accentuate your favorite features as well as enhance your natural bone structure. Unlike most paddle brushes, these brushes are designed to withstand twisting and bending and will not snap under the pressure of those with heavier hands! Plus they are 100% synthetic and vegan friendly!

802 12PC PROFESSIONAL MAKEUP BRUSH SET
